## MINERALS MANAGEMENT SERVICE

Royalty Management Program  
P.O. Box 17110  
Denver, Colorado 80217-0110

IN REPLY REFER TO:

ARD/RB  
Mail Stop 3132

**MAY 28 1987**

Dear Offshore Reporter:

Currently, the Minerals Management Service (MMS) notifies you of the Facility Measurement Point (FMP) numbers assigned to your "sales point/meter" via a Facility Measurement Information Form (FMIF). However, the FMIF does not include FMP's assigned to known "inventory facilities" that exist prior to the sales point/meter addressed in Commingling Approval letters. The enclosed list provides all FMP numbers assigned to facilities approved by MMS to maintain and monitor inventories prior to the actual meter determining volumes subject to royalty. The list identifies the facility location and/or name for easy reference. You must report these FMP's on the Oil and Gas Operations Report (OGOR) Part-C, to reflect the allocations you are receiving from the system operator (such as, your allocated production, sales, beginning and ending inventory, and any adjustments).

If you are reporting any of these sales meters on the OGOR Part-B, you must immediately begin reporting these FMP's on the OGOR Part-C. Retroactive reporting is not required unless the properties and/or facilities result in an Auditing and Financial System/Production Accounting and Auditing System or Liquid Verification System exception, or you are involved in a MMS audit. In that case, you may be advised to modify your reports.

Please note that the beginning inventory must be zero for the first month an inventory is reported for a tank. The existing inventory must be reported as an adjustment during the first month only. This will assure your ending inventory matches what was allocated.

If you have any questions, please contact your production reporting representative at 800-525-7922.

Sincerely,

Mary A. Williams  
Chief, Reports Branch
