Hi Marilyn, Geoff had told us last week that he would send us a redline/strikeout file so that we could see Peter's changes. I printed that attached file and couldn't see the changes. Did he give you a disk or a mark-up of a hard copy showing the changes?

If the disk he sent you contains redline/strikeout changes, would you mind emailing that file to everyone? If not, could you please check with Peter and/or Geoff to see if they have a file that shows the changes? If they don't, then please ask them to call Mary Williams to go over the changes with her. Thank you for your help.

Just a note - the merged comments from Peter are not exactly correct - where it shows deleted it should be added - so the exact opposite of what the tracking tells you. For example on the first page Peter deleted in subsequent litigation and added since the regulations were last amended. We are trying to fix it with a new version but you can still review this one just know they are opposite of what the document tells you.
