John - I am planning to have a telecon with STRAC on August 27 to talk about the implications of the Fina decision on their audit workplans. I have asked Geoff to participate. Would you like to join us as well? I am going to have Amber go through this list you provided and determine which of them are a result of State or Tribal audits.

John-we have been discussing our next steps in Offcam- it would be helpful to have your list so that we may be sure we are in synch on our universe.

Thx

Please see the 2 bolded **X—S** appeals below....they may be mine for the **X—S** and **X—S** Federal gas! The good news is that I do have some A/L contracts, thanks to Karen Conway. I picked them up yesterday when I went to her offices. I am not sure from what fields they originate or cover at this time.

Is there any way we can wait until after 09/30/2003 to address these? Can we please, please ask Debbie to tell John to wait on these 2? I will need to conduct a lot of research to determine if I can look at **X—S** under the first benchmark, including being able to fully understand the first benchmark, not to mention being able to understand the terms of the contracts I just got. I know I am begging, but I can't see how I could even look at **X—S** with respect to the benchmarks until after September 30th. Debbie would probably understand our request, don't you think? Please help me out on getting this Fina related stuff deferred. Thank you.

I hear you.....but I want all to know it won't even come to the surface for consideration until October, and maybe mid-October at that. I don't want anyone to be surprised when I am asked about this issue in early October and I say I have not started. Let's please make Debbie aware that the **X - S** gas value issue will need to be revisited big time, that we don't have the first A/L resale (not that we can even use it them at this point), that we need to start from scratch on the gas value, etc. It is from a selfish position that I make this plea. Thank you.
