RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

We must stop using deadly fossil fuels. Giving publicly owned coal to private companies has always been lunacy.. Coal companies have cheated the public out of proper value payments for public coal from the beginning, anyway. Royalties have been so small, in fact, that they truly won't be missed when they are gone. Check it out. It's long past time to end the federal coal leasing program and do everything possible to keep publicly owned coal in the ground.

Sincerely,

Dr. L Steele

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Barbara Hauser

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

I urge the administration to discontinue the federal coal leasing program. Nearly all scientific literature on climate change is clear that if we do not very quickly change our energy reliance away from sources which emit greenhouse gases, then the world will have to face incredibly dire environmental consequences. It makes no sense to maintain a program which continues to support coal as a viable energy source.

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

I am very impressed with the effects of president Obama's work to promote the development of cleaner fuel resources. It has both been good for the economy and the environment. I am alarmed by evidence of the possibility that fracking may be causing non-faultline related earthquakes. I also encourage any absence of use of past fuel substances which are hazards to our environment.

Sincerely,

Dan Gibfried

RE: (RIN) 1012-AA13, Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform

Giving publicly owned coal to private companies is incompatible with President Obama's stated commitment to stop runaway climate change. You must end the federal coal leasing program and do everything in your power to keep publicly owned coal in the ground.

Sincerely,

Cynthia Hamilton
