General Comment

Please accept this comment as my suggestion that the ONRR withdraws the proposed rule on the Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Reform. The proposed rule creates significant, unnecessary uncertainty and far exceeds the power given to the Secretary of the Interior. Not only does the proposal penalize many coal companies, it also effects the utilities and the future of affordable electricity for people throughout the world. Please withdraw the proposed rule and spend more time researching to come up with a better solution.
