Dear Mr. Southall,

I want to support your efforts to end subsidies for coal companies on American Public Lands, but your online form for doing so rejects my efforts as a voting American citizen currently living in Germany where my email address ends in ".de" (for deutschland) and rejects my zip code here. Please set up your computer system to be more accepting of we voters who currently live outside the country. This is not the first time I've tried to vote for changes in the system via the Center for American Progress Action Fund. Kindly pass on this information to those responsible for the current setup for online support. Thank you in advance.

Very sincerely, Sharon Hawkins-Fauster
at zip code D91094.
