Reporter Training 2025

June 2025

Disclaimer

These training materials are offered in a training scenario to serve as guidance for Federal and Indian oil, gas, and coal lease/agreement operators (onshore and offshore) to assist in determining value for royalties. Because reporting and valuation circumstances vary from lessee to lessee, be advised that these training materials may not precisely reflect your valuation scenario. Accordingly, these general materials should not be construed as setting binding or enforceable policy.

Reliance on this guidance does not prohibit ONRR from future compliance activities or auditing of your reporting based on your use of the information contained within or from directing you to report and pay in a different manner based on an application of federal law to your unique factual circumstances. These training materials do not constitute an appealable decision or order under 30 C.F.R. 1290, Subpart B.

Overview

CMP-2014 Purpose

CMP-2014 Use

CMP-2014 Creation

- ONRR Initiated CMP-2014
- Industry Initiated CMP-2014
- CMP-2014 Upload Status
- CMP-2014 Example
- CSV Record Layout

Editing the CMP-2014

Validating the CMP-2014

Overview

Released to Industry October 27, 2014

Used for ALL compliance-initiated corrections resulting from compliance activities performed by ONRR/States/Tribes

- Data Mining Reviews (added January 1, 2025)
- Compliance Reviews
- Audits

Accessed in eCommerce like the standard Report for Sales and Royalty Remittance (Form ONRR-2014)

Includes same reporting fields and formats as the standard Form ONRR-2014

CMP-2014 Purpose

Provides ONRR/States/Tribes opportunity to review your royalty lines before you submit them

Streamlines the audit and compliance process

- Ensures use of the correct PAD number and Adjustment Reason Code (ARC) for quicker resolution
- Enhances accuracy of corrections
- Ensures compliance reports are not mixed with monthly reports
- Improves efficiency for ONRR Accounts Receivable and Financial Management when processing adjustments

CMP-2014 Use

Always use the CMP-2014 when making royalty adjustments in response to compliance activities

- Applies to data mining reviews, compliance reviews and audits
- Use the PAD Number stated in the compliance communication or provided by the auditor/analyst
- Use the appropriate Adjustment Reason Codes (ARC)

If unclear, reach out to your ONRR/State/Tribe representative

Failure to report compliance-related adjustments using the CMP-2014, may result in delaying resolution of the issues

CMP-2014 Creation

CMP-2014 Creation

ONRR/STRAC or industry may initiate the CMP-2014 when responding to informal communications (e.g., Data Requests and Preliminary Determinations)

ONRR/STRAC initiates the CMP-2014 for all “formal” communications (Order Letters)

When ONRR creates the CMP-2014, ONRR can pre-load some information for Industry

ONRR Initiated CMP-2014

ONRR initiates the CMP-2014 for ALL formal communications

- Required to use for compliance adjustments in response to an order letter
- ONRR may create a single line or multiple lines
- The Royalty Value after Allowances may show \$1.00
- The company is responsible for ensuring all information is accurate

Click on the “**Upload File**” tab

- Make sure “Create New CMP-2014” is clicked

The screenshot shows the 'Upload File' tab selected in the top navigation bar. Below the navigation bar, the breadcrumb 'Home » Upload File' is visible. The main content area has a yellow background and contains the following elements:

- A radio button labeled 'Create New CMP-2014' which is selected, and an unselected radio button labeled 'Edit Existing CMP-2014'.
- A link labeled 'Upload Report Document'.
- A bold instruction: 'To upload a report file from your local computer, click the "Select" button and choose a file.'
- A note: 'For faster delivery of multiple reports, compress them into one zip file prior to upload. The system will automatically detect the file type and process accordingly.'
- A label 'Report Files (.csv, .txt, and .zip formats only)' above a text input field.
- A 'Select' button next to the text input field.

Three red arrows are overlaid on the image: one points to the 'Upload File' tab in the navigation bar, another points to the 'Create New CMP-2014' radio button, and a third points to the 'Select' button.

Click “**Select**” and browse for your file

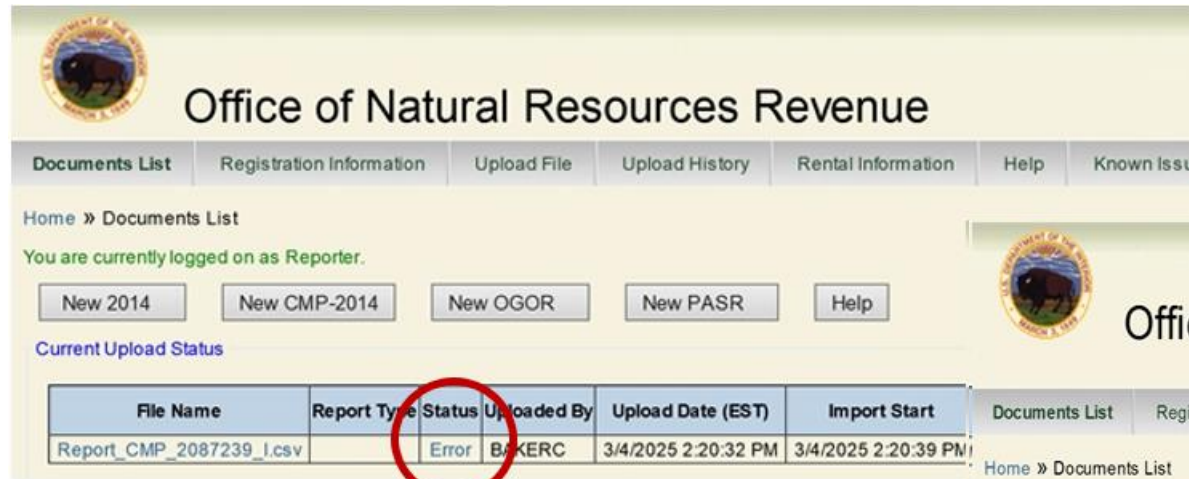

- The file type must be CSV or Text file

Form ONRR-2014 Reporting Instructions – CSV Format

Comma Separated Value (CSV) files are first created in an Excel spreadsheet then saved as a CSV file type. All data entry is done in the Excel spreadsheet. Once a CSV file is saved, you will have two files—one with an .xls extension, the other with a .csv extension. NEVER open or double-click the .csv file in Excel! Always make corrections in your original Excel file, then save it to a CSV file. If you need to view the CSV file, view it in a word processor such as WordPad. If you open the .csv file in Excel, you will lose ALL of the formatting from the Excel file. If you need assistance or sample files, please contact Ms. Mary Dietrick at 303-231-3318 (Toll Free 1-800-525-0309 ext 3318).

A. Format Requirements

All record fields must comply with the following requirements:

1. The file name must end with a .CSV extension.
2. Commas must separate all fields. Fields that are blank still require a comma to delimit their position. A comma is not required after the last field of a record.
3. Federal and Indian data must be submitted as separate documents.
4. Multiple documents can be present in a single file. Headers and Trailers separate the documents. (See examples below.)
5. Each document must begin with Record Type 1 and end with a Record Type 3 and 4. The number of Record Type 2 lines is listed in line sequential order, the maximum being 50,000 Type 2 lines in a single document.
6. All Record Types are required for each document. Do not use blank lines between multiple documents in a single file. Examples of Record Types used in multiple reports for a single file are shown below.

First Example:

PAYOR CODE 12345
FEDERAL DATA
(Lessor Code 1)

PAYOR CODE 12345
INDIAN DATA

Second Example:

Record Type 1 – Header (one line)
Record Type 2 – Detail
Record Type 3 – Report Trailer (one line)
Record Type 4 – Payment Trailer (one line)
Record Type 1 – Header (one line)
Record Type 2 – Detail (Lessor Code 2)
Record Type 3 – Report Trailer (one line)
Record Type 4 – Payment Trailer (one line)
