PAAS BULLETIN

TO ALL OFFSHORE OPERATORS

Dear Operator:

Enclosed is an updated list of Facility Measurement Point (FMP) numbers that have been assigned to flash gas measurement locations in the Gulf of Mexico Region (GOMR). These locations are royalty-determination points. If you are being allocated flash gas from one of these locations, the appropriate FMP number must be reported on the Oil and Gas Operations Report (OGOR) Part-B. Use disposition code "01" (Direct Sales - Subject to Royalty) along with the allocated Btu and volume from the oil/condensate pipeline statement. Disposition code "42" (Gathering System Gain or Loss) is used to offset this flash gas volume, because this volume is not shown as production on the OGOR-A.

If you have any questions, please contact your production reporting representative.

Sincerely,

Mary A. Williams
Chief, Production Reporting Branch
